rar. Naruto Shippuden Ultimate Ninja Storm 4 V1.07 Repack Mr DJ Repack FULL.rar - .rarQ: Why is this pandas function not working? I want to subtract the index column (date) of a dataframe from a time series. import pandas as pd import datetime as dt day_time = [('2015-01-01', '01:00:00'), ('2015-01-01', '02:00:00'), ('2015-01-01', '03:00:00'), ('2015-01-01', '04:00:00'), ('2015-01-01', '05:00:00'), ('2015-01-01', '06:00:00'), ('2015-01-01', '07:00:00'), ('2015-01-01', '08:00:00'), ('2015-01-01', '09:00:00'), ('2015-01-01', '10:00:00'), ('2015-01-01', '11:00:00'), ('2015-01-01', '12:00:00'), ('2015-01-01', '13:00:00'), ('2015-01-01', '14:00:00'), ('2015-01-01', '15:00:00'), ('2015-01-01', '16:00:00'), ('2015-01-01', '17:00:00'), ('2015-01-01', '18:00:00'), ('2015-01-01', '19:00:00'), ('2015-01-01', '20:00:00'), ('2015-01-01', '21:00:00'), ('2015-01-01', '22:00:00'), ('2015-01-01', '23:00:00'), ('2015-01-02', '00:00:00'), ('2015-01-02', '01:00:00'), ('2015-01-02', '02:00:00'), ('2015-01-02',

'03:00:00'), ('2015-01-02', '04:00:00'), ('2015-01-02', '05:00:00'), ('2015-01-02', '06:00:00'), ('2015-01-02', ' 82157476af
